Ronald A. Canales
Jeremy R. Easton-Marks
Thi Quy T. Tran

Group 4 - Assignment 2

1) GitHub Repository Link

https://github.com/JREastonMarks/COSC6353

Frontend work can be found in the frontend directory

2) Design and Development Methodology

We used an Agile approach to development. Some tickets were assigned to individuals in the beginning and other tickets left open to those who could grab them.
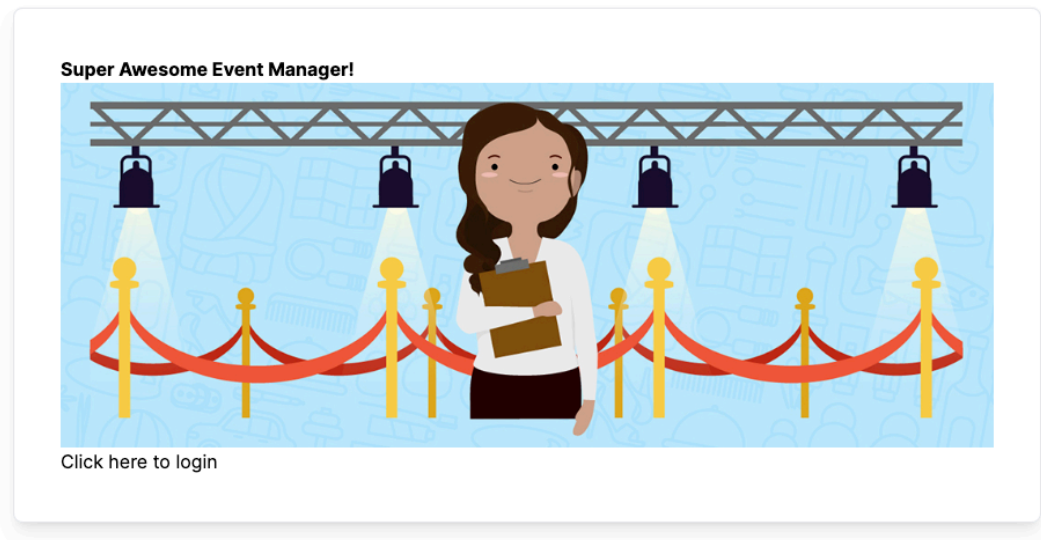

3) Front-End Technologies and Responsibilities

Technologies Used: React 18.3.1 with Next 14.2.4, NPM

Member Name	Contribution	Notes
Ronald A. Canales	Event Management Event Matching Volunteer History	All members contributed equally
Jeremy R. Easton-Marks	Initial Setup and Routing Seamless Application Styling and Structure Component creation	All members contributed equally
Thi Quy T. Tran	User/Volunteers Registration User/Volunteers Profile Management Notification System	All members contributed equally

4) Screenshots of Your Frontend
